- Node.js
- Express.js
- MongoDB

SOFT SKILLS

- Problem Solving
- Quick Lerner
- Team Work
- Time Management

ADDITIONAL SKILLS

- Digital Marketing
- Photoshop
- Canva
- Graphic Designing

PROFILE

Forward-thinking Computer Science student with hands-on experience in software development, web technologies,. Experienced in building intuitive systems like a Hospital Management System, a Li-Fi communication project (FIRST PRIZE at college level), a Fake News Detection system, a ecommerce website (apni dukan). Skilled in C, C++, HTML, CSS, JavaScript, with a passion for solving real-world problems and delivering impactful results.

PROJECTS

Li-Fi Based Communication System 🏆

- Designed a light-based data transmission system (Li-Fi).
- Compared performance and security with traditional Wi-Fi.
- FIRST PRIZE at college level for innovation and presentation

Hospital Management System

- Built a system to manage patient records, appointments, and billing.
- Improved data organization and reduced manual effort.
- Learned fundamentals of software development lifecycle.

Fake News Detection System

- Developed a Fake News Detection system using Machine Learning algorithms.
- Performed text preprocessing and feature extraction for news classification.
- Achieved accurate prediction of real vs. fake news using NLP techniques.

Apni Dukan - Ecommerce Website

- Developed a full-stack e-commerce website using the MERN stack.
- Implemented user authentication, product management, and shopping cart features.
- Integrated REST APIs with MongoDB for efficient data management.

EDUCATION

B.Tech, Computer Science

2022 - 2026

IKGPTU Punjab Technical University, Jalandhar

Certifications

- C
- C++
- Web Development (Persuing)
